📍 Hyderabad, India

Education

Class X: ICSE, *St. Peter's school*

2015 | Dabra, India

Class XII: CBSE, *R.K.V.M*

2017 | Gwalior, India

Btech: Civil Engineering,

Indian Institute of Technology, Kanpur

2018 – 2023 | Kanpur, India

Languages

- English
- Hindi

Projects

Yoga Recommendation System,

mentor: Prof. Veena Bansal

May 2021 – July 2021

- Utilized clustering algorithms and NLTK libraries to categorize and preprocess yoga asana data, then employed Doc2Vec for embeddings and PCA for dimensionality reduction to build a recommendation system.

Professional Experience

Software Developer,

Beehyv Software Solutions Private Limited

June 2023 – present

- Developed and deployed an e-commerce website using Django and ReactJS, ensuring seamless integration of frontend and backend functionalities.
- Implemented robust features for user authentication, product catalog management, cart management, and checkout process, enhancing the overall user experience.
- Transitioned to working with Frappe, contributing to the development of dynamic web applications and leveraging its powerful capabilities for rapid application development and customization.

Product Development Intern, *EasyLokal*

December 2021 – January 2022

- Developed a lead generation chatbot to enhance fresh produce supply chains and optimize supply-demand processes.
- Independently analyzed feature performance, providing insightful recommendations to improve efficiency.
- Explored potential community partnerships and devised a lead generation roadmap, contributing to increased conversion rates. Recognized with a Letter of Recommendation from Cofounder for outstanding problem-solving skills and performance.

Data Monetization Intern, *Urvija.AI*

May 2021 – July 2021

- Integrated data insights from insurance companies and cab drivers to enhance insurance policies.
- Defined KPIs, analyzed solution impact, and created user personas to ideate use cases and design wireframes.
- Executed the strategy iteratively, developing a product roadmap aimed at achieving 10x growth in product adoption and market validation.

Skills

Django | Frappe | OOPs | C++ | SQL

Data Structure and Algorithms | HTML/CSS

JavaScript | Python | Java
